Associate Degrees

Students must have completed at least 30 semester hours of 100 and 200 level Kishwaukee College coursework to qualify for graduation honors for degree programs. In addition, a 3.25 or higher cumulative grade point average will receive the following honors posted to their academic record upon satisfaction of all degree requirements:

- Summa Cum Laude – 3.750 – 4.000
- Magna Cum Laude – 3.500 – 3.749
- Cum Laude – 3.250 – 3.499

For students in transfer degree programs (A.A. or A.S.), in determining graduation honors, the calculation of the cumulative GPA will include 100 level Kishwaukee College courses. For students completing the Associate of Fine Arts (A.F.A.), the Associate of Engineering Science (A.E.S.) or the Associate of Applied Science (A.A.S.), the program GPA (only Kishwaukee College coursework used toward degree requirements) is used to determine graduation honors eligibility.

Certificates

Students who complete requirements for a certificate from Kishwaukee College with a 3.250 or higher program GPA will be awarded the certificate with distinction. For certificate programs, the program GPA (only Kishwaukee College coursework used toward the certificate requirements) is used to determine graduation honors eligibility.
