I. **Program Update**
Previous meeting minutes were reviewed without corrections. Current prog
enrollments were shared, identifying a slight decrease in enrollment in fall 2
special thank you to Dale Boughton at Sun Dog IT, Inc. for their assistance in
Help Desk Essential workshop for Kishwaukee College students.   The depart
continues the search for the CIS full-time position.

II. **Industry Update & Labor Market Discussion**
Committee shares that cybersecurity is a priority in industry and candidates
demand. This demand has led to an increase in technicians as well as chang
insurance policies. Training in REST API programming is a need for employer:

Committee discussed the importance of problem-solving skills related to
troubleshooting errors and issues.

III. **Work-Based Learning**
There are many opportunities for work-based learning through the College
Workforce and Community Education division. Several employers on the co

have sponsored Kishwaukee College students and have identified positive outcomes for students.

IV.
